CREATIVE & BRAND: *Brand Strategy, Creative Direction, Visual Identity Systems, Web Design, Print & Digital Production*

EXPERIENCE:

Founding Partner | Head of Product & Strategy – NeuroLexIQ | 2025–Present (Part-time)

As a founding partner, I lead product strategy, UX/UI, and brand development, working with technology and marketing to shape the company's product vision and overall business direction. I bridge product vision, user experience, and technical execution to build solutions that support attorneys, medical providers, and care coordination teams.

- Co-lead development of a proprietary concussion pre-screening platform that combines crash data, patient symptoms, and research-backed biometric indicators to identify likely brain injuries and improve case selection and valuation
- Partner with Canary Speech to integrate AI-driven vocal biomarkers into concussion detection and advance development of a research-backed diagnostic model
- Lead product strategy and early development of a platform to streamline attorney workflows from intake and screening through diagnostic reporting
- Direct UX/UI design for web applications supporting concussion screening, diagnostics, and care coordination
- Created the NeuroLexIQ brand from the ground up, including the company name, logo, and visual identity, and authored the company's business plan, helping shape its business and go-to-market strategies ahead of its first institutional fundraising effort.

Director of Digital Development - Sound Mind Investing | 2012–Present (Full-time)

Digital, product, and creative leader for a financial newsletter, membership platform, and affiliated SEC-registered investment advisory business. Responsible for digital strategy, UX/UI, branding, web platforms, SEO, email marketing, and customer experience. I lead developers, cross-functional teams, and agency partners to turn business goals into digital products and marketing programs that improve the member experience and support business growth. Recently built AI-powered tools and workflows to streamline publishing, content creation, and internal operations.

- Directed two major subscription platform rebuilds, defining product requirements and leading development of custom systems that unified membership, payments, publishing, and subscriber access while improving UX, security, and operational flexibility. The 2022 rebuild was followed by more than double the site's monthly traffic, from roughly 15,000–20,000 to over 40,000 sessions
- Grew the marketing contact database from 11,260 to more than 58,500 through email marketing strategy and lifecycle automation, a more than fourfold increase since 2013
- Support branding, UX/UI, website design, and marketing for SMI Private Client, Sound Mind Investing's SEC-registered investment advisory division, which has grown from approximately \$320 million to more than \$1.1 billion in client assets since 2012
- Conceived, designed, and built an AI-powered publishing platform integrating a custom CMS with AI and marketing services through APIs to streamline SEO, content creation, and social publishing
- Lead strategy and creative direction for webinar campaigns, landing pages, sales funnels, and marketing automation, generating more than 64,000 unique registration page visitors and over 12,500 registered viewers since 2016
- Direct branding and creative production across newsletters, investment reports, video content, and other member and marketing materials

Founder | Digital Consultant - Renner Web Consulting | 2001–Present (Part-time)

For more than 25 years, I've owned and operated an independent digital consulting practice alongside my full-time leadership roles, partnering with organizations ranging from nonprofits and startups to Fortune 500 companies. I help clients solve business challenges through digital strategy, branding, UX/UI, CX, web development, SEO, and marketing.

- Partner directly with clients to understand goals and lead digital initiatives from strategy and concept through design, development, launch, and optimization, coordinating developers, designers, and strategic partners throughout the process
- Design and develop websites, digital products, brand identities, and marketing campaigns for clients across healthcare, technology, nonprofits, entertainment, and professional services
- High-profile clients include Capario Healthcare Solutions, DIMON Incorporated, and Warner Bros. Records

Senior Web Architect / Manager - Southeast Christian Church | 2007–2012

- Led web strategy, governance, and execution for one of the nation's largest multi-site churches (26,000+ members)
- Partnered with leaders across dozens of ministries to build consensus, prioritize needs, and deliver a unified digital experience that effectively represented each ministry while supporting the church's overall mission
- Led cross-functional in-house and external teams, coordinating developers, designers, content owners, and stakeholders
- Oversaw the \$100K+ budget for a multi-year website redesign and rebuild, resulting in a 60% increase in website traffic
- Led implementation and customization of the church's Church Management System, transforming it into a dynamic content management platform that streamlined publishing and improved internal workflows
- Developed the church's first web standards and style guide and led design and development of the church's first mobile application

Co-Founder & Design Lead - 32 Leap | 2010–2014

- Co-founded a mobile app company. Led design, development, and operations for three iOS and Android apps with 150,000+ downloads and over 1 million sessions. Two apps featured by Apple in the App Store
- Established partnerships with organizations including Jeff Gordon Inc., KORG Inc., and Blackstar Amplification Ltd.

Account Manager, Web Interactive - New West Ad Agency | 2007

Evaluated client web presence and identified opportunities to improve business and marketing outcomes through technology, working across web strategy, design, advertising, and project management.

- Served notable clients including GE Digital Camera Division and Kentucky Tourism
- Led web conceptualization, design, marketing strategy, and campaign execution

Creative Director - MedAvant Healthcare Solutions | 2003–2007

Directed corporate branding and creative strategy for a publicly traded healthcare technology company, reporting directly to the C-suite.

- Led the company's corporate rebranding initiative, with executive leadership selecting my brand concept over competing proposals from a nationally recognized San Francisco branding agency. Established the new corporate identity, logo, messaging, and visual standards, then traveled to offices nationwide to build stakeholder buy-in and drive adoption
- Directed creative strategy and production across web, print, multimedia, trade show exhibits, sales collateral, and executive presentations
- Developed and governed enterprise-wide brand standards across marketing, sales, product, and corporate communications
- Implemented and managed the custom CMS to support scalable web publishing
- Led development of multimedia product demonstrations that gave sales teams more compelling, consistent customer presentations

EDUCATION:

Bachelor of Science in Communications (Media Graphics)

Liberty University (1996–2000)
