Growth: SEO, Content Intelligence, Marketing Automation, Email Marketing, Conversion Optimization

Creative & Brand: Brand Strategy, Creative Direction, Visual Identity Systems, Web Design, Print & Digital Production

EXPERIENCE:

Head of Product & Strategy – NeuroLexIQ (mTBI Care) | 2025–Present (Part-time)

Founding partner responsible for product strategy, UX/UI, and brand development, partnering with technology and marketing leadership to define the company's product vision, platform strategy, and overall business direction. Bridge product vision, user experience, and technical execution to build AI-enabled solutions that support attorneys, medical providers, and care coordination teams while helping position the company for its first institutional fundraising round.

- Co-led development of a proprietary concussion pre-screening platform that combines crash data, patient symptoms, and research-backed biometric indicators to identify likely brain injuries, improve case selection, strengthen case valuation, and support generation of litigation-ready evidence
- Partner with Canary Speech to integrate AI-driven vocal biomarkers into concussion detection and advance development of a research-backed diagnostic model
- Lead product strategy and early development of a centralized platform that streamlines attorney workflows from intake and screening through diagnostic reporting
- Direct UX/UI design for web applications supporting concussion screening, diagnostics, and care coordination
- Created the NeuroLexIQ brand from the ground up, including the company name, messaging, logo, visual identity, and brand standards
- Created the company's first business plan and helped shape its product strategy, business model, commercialization approach, and investor vision in preparation for its first institutional fundraising effort.

Director of Digital Development - Sound Mind Investing | 2012–Present (Full-time)

Digital, product, and creative leader for a financial newsletter, membership platform, and affiliated SEC-registered investment advisory business, responsible for digital strategy, UX/UI, branding, web platforms, SEO, email marketing, and customer experience. Lead developers, cross-functional teams, and agency partners to turn business goals into scalable digital products, customer experiences, and marketing initiatives that strengthen member engagement, support business growth, and drive long-term results. Recently incorporated AI-powered tools and workflows to streamline publishing, content creation, and internal operations.

- Directed two major subscription-platform rebuilds, defining product requirements, leading the development of custom systems that unified membership, payments, publishing, and subscriber access while improving UX, security, and operational flexibility
- Support branding, UX/UI, website design, and marketing for SMI Private Client, Sound Mind Investing's SEC-registered investment advisory division, delivering digital experiences and marketing initiatives that help convert newsletter subscribers into advisory clients, supporting the firm's growth from approximately \$320 million to more than \$1.1 billion in AUM
- Conceived, designed, and built an AI-powered publishing intelligence platform integrating a custom CMS with multiple AI and marketing services through APIs to streamline SEO, content creation, and brand-aligned social publishing
- Lead strategy and creative direction for webinar campaigns, landing pages, sales funnels, promotional assets, and marketing automation initiatives that drive engagement and conversion
- Direct branding and creative production across newsletters, investment reports, video content, and other member and marketing materials

Founder | Digital Consultant - Renner Web Consulting | 2001–Present (Part-time)

For more than 25 years, I've owned and operated an independent digital consulting practice alongside my full-time leadership roles, partnering with organizations ranging from nonprofits and startups to Fortune 500 companies. I help clients solve business challenges through digital strategy, branding, UX/UI, CX, web development, SEO, and integrated marketing.

- Partner directly with clients to understand business goals and lead digital initiatives from strategy and concept through design, development, launch, and optimization, coordinating developers, designers, and strategic partners throughout the process
- Design and develop websites, digital products, brand identities, SEO strategies, and integrated marketing campaigns for clients across healthcare, technology, nonprofits, entertainment, and professional services
- High-profile clients include Capario Healthcare Solutions, DIMON Incorporated, and Warner Bros. Records

Senior Web Architect / Manager - Southeast Christian Church | 2007–2012

- Led web strategy, governance, and execution for one of the nation's largest multi-site churches (26,000+ members)
- Partnered with leaders across dozens of ministries to build consensus, prioritize needs, and deliver a unified digital experience that effectively represented each ministry while supporting the church's overall mission
- Led cross-functional in-house and external teams, coordinating developers, designers, content owners, and stakeholders
- Oversaw the \$100K+ budget for a multi-year website redesign and rebuild, resulting in a 60% increase in website traffic
- Led the implementation and customization of the church's Church Management System, transforming it into a dynamic content management platform that streamlined publishing, automated content updates, and improved internal workflows
- Developed the first web standards and style guide, ensuring a consistent brand and user experience across multiple websites
- Led the design and development of the church's first mobile application

Co-Founder & Design Lead - 32 Leap | 2010–2014

- Co-founded a mobile app company. Led design and development for three iOS and Android apps with 150,000+ downloads and over 1 million sessions. Two applications featured by Apple in the App Store
- Managed day-to-day operations and product execution
- Established partnerships with organizations including Jeff Gordon Inc., KORG Inc., and Blackstar Amplification Ltd.

Account Manager, Web Interactive - New West Ad Agency | 2007

Evaluated client web presence and identified opportunities to improve business and marketing outcomes through technology, working across web strategy, design, advertising, and project management.

- Served notable clients including GE Digital Camera Division and Kentucky Tourism
- Led web conceptualization, design, marketing strategy, and campaign execution

Creative Director - MedAvant Healthcare Solutions | 2003–2007

Directed corporate branding and creative strategy for a publicly traded healthcare technology company, reporting directly to the C-suite and partnering with executive leadership to shape corporate identity, product marketing, and customer-facing communications.

- Led the company's corporate rebranding initiative, with executive leadership selecting my brand concept over competing proposals from a nationally recognized San Francisco branding agency. Established the new corporate identity, logo, messaging, and visual standards, then traveled to offices nationwide to present the new brand strategy, build stakeholder buy-in, and drive consistent adoption across the organization
- Directed creative strategy and production across web, print, multimedia, trade show exhibits, sales collateral, and executive presentations
- Developed and governed enterprise-wide brand standards, ensuring consistent execution across marketing, sales, product, and corporate communications
- Implemented and managed the custom CMS to support scalable web publishing and digital communications
- Led the development of multimedia product demonstrations that equipped sales teams with more compelling, consistent customer presentations while streamlining content creation processes

EDUCATION:

Bachelor of Science in Communications (Media Graphics)

Liberty University (1996–2000)
